

Roche CP School Maths Policy

Area of Maths = Addition

Definition: Addition is to join two or more numbers (addends) or quantities to get one number called the sum or total. Jenny Eather AMDFK

KEY STAGE 2 ONLY TO INCLUDE ADDENDS.

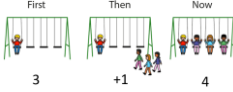

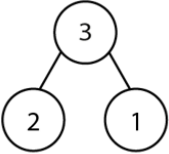

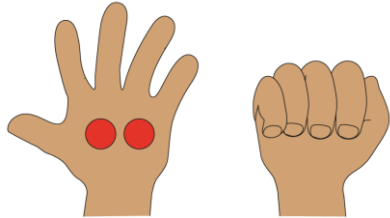

$$\begin{array}{ccc} \text{addend} & \text{addend} & \text{total} \\ 3 & + & 7 = 10 \end{array}$$

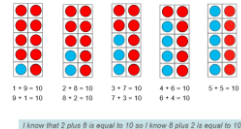

Vocabulary: add, plus, combine, total, sum, join, increase, addend, more than, greater than

Basic structure: addend + addend = sum / total
Sum / total = addend + addend

Declarative knowledge	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Addition + Subtraction Automatically recall... Blue highlight = Roche's Specific Expectations Red font = Roche's Priorities for Revisiting	Number bonds to 5 + some to 10. Steps 1-8 Double facts (within 10). Step 9 Odd and even numbers up to 10.	Number bonds of 10 Number bonds to 20 Steps 10-14 Odd and even numbers up to 20. Know that addition is commutative and subtraction is not.	Addition and subtraction facts within 20. Steps 10-14 Know that addition is commutative and subtraction is not.	Number bonds to 100 in multiples of 10 and 5.	Number bonds to 100 in ones. Number bonds to 1000 in multiples of 100s and 50s.	Add numbers mentally with increasingly large numbers. (100s, 1000s + 10,000s) Number bonds to 1000 in multiples of 25s + 10s.	

Year 1

Year group	NC L.O.	Practical	Pictorial	Abstract	Problem Solving	Reasoning
		<p>Make it!</p> <p>SAY IT</p>	<p>Show it/Draw it!</p> <p>SAY IT</p>	<p>Read/Write it!</p> <p>SAY IT</p>		
1	<p>Non-stat guidance</p> <p>1AS-1 Compose numbers to 10 from 2 parts.</p> <p>Additive structures, including part-wholes and first, then, now statements and models.</p> <p>Read, write and interpret mathematical statements involving addition (+) and equals (=) signs.</p> <p>Demonstrate an understanding of the</p>	<p>Place 2 different sets of objects on the desk and ask pupils to describe what is on the table as "there are X red objects and X blue objects. There are X objects altogether.</p>	 <p>Complete the sentences.</p> <p>There are ____ blue backpacks, there are ____ yellow backpacks, there are ____ backpacks overall.</p>  <p>Bar models</p> <p>Part-whole models</p>	 <p>Write a number sentence to describe the birds above.</p>  <p>Write a number sentence to describe the blocks above.</p>  	 <p>There are 5 counters altogether. Can you guess how many counters are hiding?</p> <p>Collect five objects and hide some from your friend. Can they say how many are hiding?</p>	  <p>Look at the two pictures above. What is the same? What is different?</p>

	commutative law (e.g. $3 + 2 = 5$, therefore $2 + 3 = 5$).					
1	2020 Guidance	<p>1NF-1 Develop fluency in addition and subtraction facts within 10. Year 1 document - Pages 17 - 23</p> <p>1AS-1 Compose numbers to 10 from 2 parts, and partition numbers to 10 into parts, including recognising odd and even numbers.</p> <p>Year 1 document – Pages 23 – 28</p> <p>1AS-2 Read, write and interpret equations containing addition (+), subtraction (-) and equals (=) symbols, and relate additive expressions and equations to real-life contexts.</p> <p>Year 1 document - Pages 29 – 35</p> <p>These units will run through all of the Y1 addition and subtraction objectives and will also be part of morning maths.</p>				
1	<p>Recall at least four of the six number bonds for 10 and reason about associated facts (e.g. $6 + 4 = 10$, therefore $4 + 6 = 10$ and $10 - 6 = 4$)</p> <p>A few discrete lessons and then drip through the year.</p> <p>Solve one-step problems that involve addition using concrete objects and pictorial representations, and missing number problems such as $7 = ? - 9$.</p>	<p>Tens frames</p> <p>Double-sided counters</p> <p>Dienes</p> <p>Numicon to 10</p> <p>Coins (1p to make 10p)</p>	<p>Pictorial representations of tens frames, numicon, coins, dienes</p> 	<p>$0 + ? = 10$</p> <p>$1 + ? = 10$</p> <p>$2 + ? = 10$</p>	<p>Here's a set of Numicon from 1 to 10, how many Numicon pairs can you put together to make 10? (Number bond sandwich) – look for odd and even patterns.</p>	<p>Mrs Gardner thinks there is only 2 ways to record this number sentence:</p> <p>$8 + 2 = 10$</p> <p>$2 + 8 = 10$</p> <p>True or False? Prove it! (False $10 = 2 + 8$ and $10 = 8 + 2$)</p>

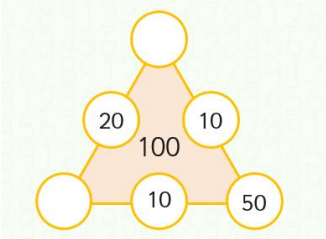

1	2020 Guidance	<p>1AS–1 Compose numbers to 10 from 2 parts, and partition numbers to 10 into parts, including recognising odd and even numbers.</p> <p>Year 1 document – Pages 23 – 28</p> <p>This will run through all of the Y1 addition and subtraction objectives and will also be part of morning maths.</p>				
1	<p>Represent and use number bonds within 20.</p> <p>Recap bonds withing / to 10 and then progress up to 20</p> <p>Solve one-step problems that involve addition using concrete objects and pictorial representations, and missing number problems such as $7 = ? - 9$.</p>	<p>Objects</p> <p>Fingers (for 10s, partners for 20s)</p> <p>Coins (1p and 10p)</p> <p>Numicon</p> <p>Dienes</p> <p>Unifix cubes</p> <p>Bar model with cubes / dienes</p> <p>Hoops and Bean bags for Part Part Whole</p> <p>Remember to Move the equals sign</p>	<p>Number line with numbers on</p> <p>20 rectangle (a hundred square cut)</p> <p>Images</p> <p>Ruler/Counting stick</p> <p>Chn draw</p> <p>Add facts table</p> <p>Remember to Move the equals sign</p>	<p>Counting on (to get to 10 or 20)</p> <p>Abstract bar models, just numbers.</p> <p>Part, Part, Whole Diagrams</p> <p>Missing number problems</p> <p>Remember to Move the equals sign</p> <p>Fluency - Patterns</p> <p>Number fans</p>	<p>How many different ways can you make 15?</p> <p>Spot patterns in Add facts table e.g., colour all then numbers that make 9, can you see a pattern? Record them in a sequence. Can you record that with objects (Bar model)?</p>	<p>I think there are 8 different ways of making the number 14 using addition, am I correct? Do some of your calculations look similar?</p> <p>Recap commutative law during reasoning.</p>
1	2020 Guidance	<p>1AS–2 Read, write and interpret equations containing addition (+), subtraction (-) and equals (=) symbols, and relate additive expressions and equations to real-life contexts.</p> <p>Year 1 document - Pages 29 - 35</p>				

1	<p>Add one-digit and two-digit numbers to 20, including zero.</p> <p><i>This should mainly be single digit + single digit that bridge 10, such as 6 + 8, 5 + 7</i></p> <p><i>Solve one-step problems that involve addition using concrete objects and pictorial representations, and missing number problems such as $7 = ? - 9$.</i></p>	<p>Fingers (for 10s, partners for 20s)</p> <p>Coins (1p, 10p, 20p)</p> <p>Numicon</p> <p>Dienes</p> <p>Unifix cubes</p> <p>Bar model with cubes / dienes</p> <p>Remember to Move the equals sign</p>	<p>Number line with numbers on</p> <p>20 rectangle (a hundred square cut)</p> <p>Images</p> <p>Ruler/Counting stick</p> <p>Chn draw</p> <p>Add facts table</p> <p>Remember to Move the equals sign</p>	<p>Counting on</p> <p>Abstract bar models, just numbers.</p> <p>Missing number problems</p> <p>Part Part Whole model</p> <p>Recording of addition</p> <p>Remember to Move the equals sign</p>	<p>Adding calculations and ordering groups of calculations.</p> <p>Mark my work</p> <p>Contextual problems e.g. I have 8 eggs, how many more do I need to fill an egg box with twelve spaces.</p> <p>Missing digit problems e.g. $1\square + 4 = 17$ with resources to help.</p> <p>Use these 3 number cards to make an addition number sentence. How many ways are there?</p>	<p>I have some number cards: 3, 5, 2, 0, 7 Which two number cards sum to a number greater than 10?</p> <p>James says: If I add any of the two cards together I will get a number larger than the number on either card. Is he correct? Why?</p> <p>I can't make a number greater than 18 by adding two single-digit numbers. True or false? Prove it!</p> <p>Could I make a number greater than 18 if I had three digits to add together? Give three examples.</p>
1	<p>Solve one-step problems that involve addition and missing numbers using concrete objects and pictorial representations</p>

Year 3

Year group	NC L.O.	Practical	Pictorial	Abstract	Problem Solving	Reasoning									
		Make it! SAY IT	Show it/Draw it! SAY IT	Read/Write it! SAY IT											
3	2020 Guidance 3AS-1 Calculate complements to 100, for example: $46 + ? = 100$	Dienes Coins (For change) PV counters	Hundred square Pictorial hundred diene Bar models Part-whole models 	Missing number questions Bonds sheets for pattern-spotting (Already prepared)	A dressmaker had 1m of ribbon. Then she used 22cm of it. How many centimetres of ribbon does she have left? A toy shop sells ping-pong balls for 65p each. If I use a £1 coin to pay for a ping-pong ball, how much change will I get, in pence? Mr Jones has 100 stickers. 47 of them are gold and the rest are silver. How many are silver?	Mr Moore says: "Finding bonds to 100 is easy, you make the ones digits add up to ten and the tens digits add up to 10. For example $43 + 67 = 100$ because $3 + 7 = 10$ and $4 + 6 = 10$." Explain why Mr Moore is wrong .									
3	[Key] Add numbers mentally, including three-digit number and hundreds.	Fingers Numicon Dienes Coins – particularly £1 Multi-link cubes Bar model with cubes / dienes	Blank number line 100 square Abacus PV chart Metre ruler Images Ruler/Counting stick Chn draw	Counting on Abstract bar models, just numbers. Missing number problems Part Part Whole model Remember to move the equals sign	Word and contextual problems Missing number in different forms, bar, objects, on a hundred square. Missing number squares e.g. Make 1000: <table border="1" data-bbox="1191 1174 1496 1337"> <tr> <td></td> <td></td> <td></td> </tr> <tr> <td></td> <td>600</td> <td>300</td> </tr> <tr> <td>500</td> <td></td> <td>20</td> </tr> </table>					600	300	500		20	If I count up in hundreds from 125 will I get to 725? Explain your reasoning. James completed the question below and his teacher marked it as incorrect: $345 + 100 = 355$ Can you explain the mistake James has made?
	600	300													
500		20													

		Remember to move the equals sign PV Chart for placing objects	Remember to move the equals sign Arrow cards		Mr Moore adds a hundred diene to the number below:  <p>What is Mr Moore's new number?</p>	
		Write the four number facts that this bar model shows.				
						
		<input type="text"/> + <input type="text"/> = <input type="text"/> <input type="text"/> + <input type="text"/> = <input type="text"/> <input type="text"/> - <input type="text"/> = <input type="text"/> <input type="text"/> - <input type="text"/> = <input type="text"/>				
Shape space and measure opportunities: Adding pounds to an amount of money. Adding metres to a number of centimetres.						
3	2020 Guidance	3NF-1 Secure fluency in addition and subtraction facts that bridge 10, through continued practice. Year 3 document – pages 25-27 3NF-3 Apply place-value knowledge to known additive and multiplicative number facts (scaling facts by 10), for example: $80 + 60 = 140$; $140 - 60 = 80$. $30 \times 4 = 120$; $120 \div 4 = 30$. Year 3 document – pages 30 - 32				
3	[Key] Add numbers mentally, including three-digit number and tens. (Recap 2 digit and tens)	Fingers Numicon Dienes Coins – particularly 10ps Multi-link cubes Bar model with cubes / dienes	Blank number line 100 square Abacus PV chart Metre ruler Images Ruler/Counting stick	Counting on Abstract bar models, just numbers. Missing number problems Part Part Whole model	Word and contextual problems Missing number in different forms, bar, objects, on a hundred square. Calculations that include greater than and less than symbols Money questions, multiples of 10 more than a number e.g. a laptop cost £555, A TV costs £20 more, how much does a TV cost?	Sarah says: "If I have a tens Diene and then keeps placing more tens Dienes next to it eventually I'll make 100." Do you agree with Sarah? Why? Why not? Mrs Campbell says: If I have the number 276 and I keep adding tens to it the tens column will change but the ones column and hundreds column will always stay the same .

		Remember to move the equals sign PV Chart for placing objects	Chn draw Remember to move the equals sign Arrow cards	Remember to move the equals sign	Mr Moore says we can have 10 more minutes for Science. We usually have 115 minutes, how long will we get today?	Is Mrs Campbell correct? Explain why / why not. Thomas says "I have a money jar just for £10 notes and I have £145 saved in side it." If Thomas' jar does only have £10 notes in it is it possible for him to have £145? Explain your answer.
Shape space and measure opportunities: Adding multiples of 10p to an amount of money.						
3	2020 Guidance	3NF-1 Secure fluency in addition and subtraction facts that bridge 10, through continued practice. Year 3 document – pages 25-27 3NF-3 Apply place-value knowledge to known additive and multiplicative number facts (scaling facts by 10), for example: $80 + 60 = 140$; $140 - 60 = 80$. $30 \times 4 = 120$; $120 \div 4 = 30$. Year 3 document – pages 30 - 32				
3	[Key] Add numbers mentally, including three-digit number and ones. (Recap 2 digit and ones)	Fingers Numicon Dienes Coins for 2digit and 1 digit. Multi-link cubes Bar model with cubes / dienes Remember to move the equals sign PV Chart for placing objects	Blank number line 100 square Abacus PV chart Metre ruler Images Ruler/Counting stick Chn draw Remember to move the equals sign Arrow cards	Counting on Abstract bar models, just numbers. Missing number problems Part Part Whole model Remember to move the equals sign	Word and contextual problems e.g. I have 123 pencils. James gives me 8 more. How many do I have now? Missing number in different forms, bar, objects, column Calculations that include greater than and less than symbols Money questions, cost of multiple items	I think.... Odd / Even reasoning e.g. an odd plus an odd will sum to an odd; always, sometimes, never true? Prove it! Mrs Welch thinks when you add a one digit number to any 3 digit number, only the ones change. True or False? How do you know?

3	2020 Guidance	3NF-1 Secure fluency in addition and subtraction facts that bridge 10, through continued practice. Year 3 document – pages 25-27													
3	Add numbers with up to three digits, using formal written methods of columnar addition. (Recap 2 + 2 digits)	Coins Numicon Dienes Multi-link cubes Bar model with cubes / dienes Counters with PV charts Remember to move the equals sign	Number line 100 square Abacus PV chart Metre ruler Images Ruler/Counting stick Chn draw Arrow cards Remember to move the equals sign	Counting on Abstract bar models, just numbers. Missing number problems Part Part Whole model Recording of addition (See Written Method Calculation Policy) Remember to move the equals sign	I earned £150 pocket money last year and £22 this month. How much money have I earned in total? Show the children six partition addition calculations. Which one have no carry digits? I want to build a Lego model that needs 400 pieces. I have 137 bricks in one tub and 357 bricks in another tub. Do I have enough?	Sam is adding two numbers in a counters place value chart: <table border="1" data-bbox="1653 475 1984 715"> <thead> <tr> <th>Hundreds place</th> <th>Tens place</th> <th>Ones place</th> </tr> </thead> <tbody> <tr> <td>  </td> <td>  </td> <td>  </td> </tr> <tr> <td>  </td> <td>  </td> <td>  </td> </tr> </tbody> </table> Show children a partitioned calculation for the above diagram with an error in, is it correct? Can you explain the error?	Hundreds place	Tens place	Ones place						
Hundreds place	Tens place	Ones place													
															
															
Shape space and measure opportunities: Solve simple problems in a practical context involving addition of money of the same unit, including giving change.															
3	2020 Guidance	3NF-1 Secure fluency in addition and subtraction facts that bridge 10, through continued practice. Year 3 document – pages 25-27. 3NF-3 Apply place-value knowledge to known additive and multiplicative number facts (scaling facts by 10), for example: $80 + 60 = 140$; $140 - 60 = 80$. $30 \times 4 = 120$; $120 \div 4 = 30$. Year 3 document – pages 30-32. 3AS-2 Add and subtract up to three-digit numbers using columnar methods. Year 3 document – pages 36 – 39.

Year 6

6	2020 Guidance	6AS/MD-2 Use a given additive or multiplicative calculation to derive or complete a related calculation, using arithmetic properties, inverse relationships, and place-value understanding.
---	------------------	---

Area of Maths = Subtraction

Definition: Subtraction is to take one quantity away from another.

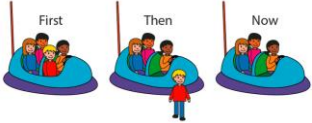

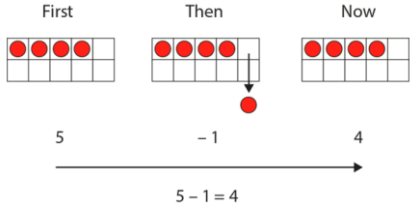

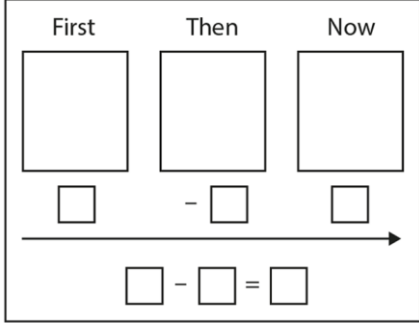

Jenny Eather AMDFK

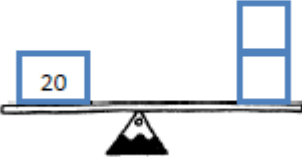

Vocabulary: subtract, take away, decrease, remove, find the difference.

Basic structure: $\text{minuend} - \text{subtrahend} = \text{difference}$ (KS2 only)

Declarative knowledge	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Subtraction Automatically recall... Blue highlight = Roche's Specific Expectations Red font = Roche's Priorities for Revisiting	Number bonds to 5 + some to 10. Steps 1-8 Subtraction facts within 5 + some to 10.	Number bonds of 10 (Subtraction facts) Number bonds to 20 (Subtraction facts) Steps 10-14 Odd and even numbers up to 20. Know that addition is commutative and subtraction is not.	Subtraction facts within 20. Steps 10-14 Know that addition is commutative and subtraction is not.	Number bonds to 100 in multiples of 10 and 5.	Number bonds to 100 in ones. Number bonds to 1000 in multiples of 100s and 50s.	Subtract numbers mentally with increasingly large numbers. [100s, 1000s + 10,000s] Number bonds to 1000 in multiples of 25s + 10s.
